## NEW BOOKS ADDED IN THE LIBRARY

### 1. **Tomorrow's Lawyers: An Introduction to Your Future**

Tomorrow's Lawyers predicts that we are at the beginning of a period of fundamental transformation in law: a time in which we will see greater change than we have seen in the past two centuries. Where the future of the legal service will be a world of internet-based global businesses, online document production, commoditized service, legal process outsourcing, and web based simulation practice. Legal markets will be liberalized, with new jobs for lawyers and new employers too. This book is a definitive guide to this future - for young and aspiring lawyers, and for all who want to modernize our legal and justice systems. It introduces the new legal landscape and offers practical guidance for those who intend to build careers and businesses in law. Tomorrow's Lawyers is divided into three parts. The first is an updated restatement of Richard Susskind's views on the future of legal services, as laid out in his previous bestselling works, *The Future of Law*, *Transforming the Law*, and *The End of Lawyers?*. He identifies key drivers of change, such as the economic downturn, and considers how these will impact on the legal marketplace. In the second part, Susskind sketches out the new legal landscape as he predicts it, including the changing role of law firms, and in-house lawyers, with virtual hearings and online dispute resolution. *The Future of Law*, Susskind's prediction published in 1996 about the future of legal services. This is the essential introduction to the future of law for those who want to succeed in the rapidly changing legal landscape.

## 2. Digital Justice: Technology and the Internet of Disputes/Ethan Katsh

Improving access to justice has been an ongoing process, and on-demand justice should be a natural part of our increasingly on-demand society. What can we do for example when Facebook blocks our account, we're harassed on Twitter, discover that our credit report contains errors, or receive a negative review on Airbnb? How do we effectively resolve these and other such issues?

*Digital Justice* introduces the reader to new technological tools to resolve and prevent disputes bringing dispute resolution to cyberspace, where those who would never look to a court for assistance can find help for instance via a smartphone. The authors focus particular attention on five areas that have seen great innovation as well as large volumes of disputes: ecommerce, healthcare, social media, labor, and the courts. As conflicts escalate with the increase in innovation, the authors emphasize the need for new dispute resolution processes and new ways to avoid disputes, something that has been ignored by those seeking to improve access to justice in the past.

### 3. The Great Tale of Hinduism/Prathviraj Singh

Redundancy of the idea of religion seems to be growing in the age where any mystery can be demystified by Science. It seems as if patronizing religion is outdated in today's so-called progressive world. However, adaptability and progressiveness have been the basic requisites of Hindu philosophy. Hence, it requires its followers to evolve with change. Through this book, the authors have tried to endorse the role of Hinduism in the formation and development of human society. They have looked back at the conception, evolution and sustenance of Indian society through the lens of Hinduism, and have tried to explain this process through short Hindu mythological tales. We believe decoding folklore is also a source of understanding the history of any given period. Different tales spanning different ages and times bring forth a completely different picture of the mores and morality of our society, which still abide by the constant basic principles of Hinduism. This signifies the adaptability of this great religion with changing times. The reader will discover that, eventually, the core values of Hinduism remain the same and support its relevance today and will continue to do so for eternity.

The universe is made up of stories, not of Atoms. — Muriel Rukeyser, writer and poetess

#### 4. **Who Painted My Money White?/Sree Iyer**

A ship carrying 2 containers, each containing Rs.5000 crores in 500- and 1000-rupee notes, docks in the dark of night at Kochi. The money is quickly distributed to members of a minority community using a network of 100 Chartered accountants. The bulk of the money finds its way back into fake firms, shell corporations, and charities with the sole aim of destabilizing the country. A DIABOLICAL PLAN BY THE FREEDOM PARTY TO WEAKEN INDIA Greedy politicians of the Freedom Party want to ensure that the opposition can never come to power. Pander to the largest minority, enrich them beyond their expectations and ensure they will be with the party. To this end, a plan is hatched to print high denomination money and try and increase the velocity of money, thereby creating the illusion of growth. A compromised Finance Minister is forced to buy paper from the same sources as India's rival Pakistan. Their intelligence wing gets hold of the security threads being used in Indian notes through honey trapping and comes up with notes that are almost as good as the real ones. The fake money brought in slowly starts moving around the country, driving up inflation and real estate prices, mixing with good notes. a porous border with Nepal and Bangladesh results in a significant amount of the fake currency entering Indian banks. When the notes were tallied, instead of 87% of printed notes coming back to the Reserve Bank, 113% comes!

## 5. Resurgent Asia: Diversity in Development/Deepak Nayyar

Gunnar Myrdal published his magnum opus Asian Drama, in 1968, to conclude that Asia's development prospects were gloomy. Since then, contrary to Myrdal's expectations Asia has been transformed beyond recognition, the development of Nations and living standards of people revolutionized. These transformations have been uneven across countries and unequal among people. Yet, Asia's economic progress in this short time span has been remarkable and almost unprecedented in history. Resurgent Asia provides an analytical narrative of Asia's incredible economic development, situated in the wider context of historical, Political, and social factors. It also provides an economic analysis of underlying factors that assisted Asia's growth and the critical issues in the process of development. Resurgent Asia studies not only the sub-regional East, Southeast, South, and West Asia, but also the major countries - China, India, South Korea, Indonesia, Turkey, Thailand, Philippines, Malaysia, Singapore, Pakistan, Bangladesh, Vietnam, and Sri Lanka- which account for more than four-fifths of Asia's population and income.

7. **Virusphere : Ebola, AIDS, Influenza and the Hidden World of the Virus/Frank Ryan**

A virologist's insight into how viruses evolve and why global epidemics are inevitable in 1993 a previously healthy young man was drowning in the middle of a desert, in fluids produced by his own lungs. This was the beginning of the terrifying sin nombre hantavirus epidemic and the start of a scientific journey that would forever change our understanding of what it means to be human. After witnessing the sin nombre outbreak, Dr Frank Ryan began researching viral evolution and was astonished to discover that it's inextricable from the evolution of all life on Earth. From aids and Ebola to the common cold, Ryan explores the role of the virus within every ecosystem on the planet. His gripping conclusions shed new light on the natural world, proving that what doesn't kill you really does make you (and your species) stronger.

**8. Indian Railways- A Visual Journey: Transforming a Nation's Destiny/Dorling Kindersley**

This sumptuously illustrated reference book traces the history of the railways in India from the early plans of the 1830s, the laying of the first lines, and expansion into the interiors of the country to its role in India's momentous freedom movement, and the present era of speed and technological advancement. It dives into the operational and commercial aspects, explores the development of technology, and documents the railways' transition from a colonial tool of expansion and trade to an intricate system with a distinct national identity. At the same time, it also celebrates the best-loved routes, classic locomotives, iconic stations, and awe-inspiring bridges and tunnels.

## 9. The Shining /Stephen King

Danny is only five years old, but in the words of old Mr Hallorann he is a 'shiner', aglow with psychic voltage. When his father becomes caretaker of the Overlook Hotel, Danny's visions grow out of control.

As winter closes in and blizzards cut them off, the hotel seems to develop a life of its own. It is meant to be empty. So who is the lady in Room 217 and who are the masked guests going up and down in the elevator? And why do the hedges shaped like animals seem so alive?

Somewhere, somehow, there is an evil force in the hotel - and that, too, is beginning to shine .
