MDGs to SDGs: Strategic Shifts

• **Conclusiveness** – Focus on the Finish line: Zero Poverty, Hunger, preventable Child Deaths, Gender Discrimination & Violence, etc.

• **Comprehensiveness** - The SDGs are more comprehensive with fuller array of targets, better focus on causality and strategic issues.

• **Universality** – Applicable to all countries, with greater emphasis on the responsibility of the developed countries,

• **Inclusiveness** – Clear focus on ‘leaving no one behind and reaching the furthest behind first
• **Hunger distinct from Poverty** – deeper analysis of structural and social factors separates poverty from food and nutrition security.

• **Peace Building** – Addressing conflict resolution and peace building as enablers of growth and development

• **Resourcing**
  – Focus on sustainable economic development in a country to meet financial resource requirement for achieving SDGs;
  – Holistic approach to international financing of SDGs – Stronger focus on ODA, international resource flows, technology transfer and trade

• **Measurability** – Clear emphasis on monitoring, evaluation and accountability, and the metrics - high-quality, up-to-date and reliable data
