

DR. RAMESH CHAND

Profile

Dr. Ramesh Chand is a renowned Indian agricultural economist and a policy maker of repute. Over the last three and half decades, he has been actively involved in food and nutritional security related agricultural issues. Since 2015, he is a Member, National Institution for Transforming India (NITI) Aayog in the rank of Union Minister of State, Government of India. NITI Aayog, formerly known as the Planning Commission of India, is a policy think-tank, chaired by the Prime Minister of India. In this position, Dr. Chand is directly steering India's agricultural development agenda with major focus on food and nutrition security. He is also providing policy related inputs to the Ministries both of the Central and State Governments concerning land and water resources, SDGs, poverty alleviation, forest and environment, sustainable livelihood, smallholder development, food processing, value chain and agricultural marketing.

Dr. Chand is currently responsible for India's vision, strategy and action agenda for the agriculture sector, including the government's flagship agricultural program for doubling farmers' income.

He is also a Member of the Fifteenth Finance Commission of India, which determines devolution of tax resources between the Union Government and the States and recommends fiscal consolidation roadmap. Dr. Chand is also serving as Vice Chairman, Commission on Farmers' Prosperity, State of Uttar Pradesh, India.

Education

Dr. Ramesh Chand holds Bachelor's and Master's degrees in Agriculture from Punjab Agricultural University, Ludhiana and a Ph.D. in Agricultural Economics from Indian Agricultural Research Institute, New Delhi.

Academic and Research Achievements

Dr. Chand has served in eminent academic and research management positions including: National Professor at Indian Council of Agricultural Research, Principal Scientist at National Institute of Agricultural Economics and Policy Research, Professor at Institute of Economic Growth, University of Delhi, and Professor at Punjab Agricultural University, Ludhiana, India; Visiting Professor at University of Wollongong, NSW, Australia, and Visiting Fellow at Institute of Developing Economies, Chiba-shi Japan. He was Director of National Institute of Agricultural Economics and Policy Research, New Delhi for six years.

Dr. Chand has shaped the discourse on agricultural development and food security in India and Asia through his research and foresight analysis. He has published more than 120 research papers, seven books and ten policy papers. His research work focused on food policy, agri-markets, agricultural growth and development, small-holders' development, natural resource management, food and nutritional security, subsidies and investments, trade and WTO, and technology policy. Dr. Chand has led over a dozen research projects funded by international organizations like FAO, OECD, World Bank, UNCTAD, UNDP, Commonwealth, and UNESCAP. He writes regularly in major national newspapers and magazines and actively participates in media debates on agricultural issues.

Policy Making

Prior to being appointed Member, NITI Aayog, Dr. Chand chaired several high level committees of Indian government including the Planning Commission of India and the Prime Minister's Office. He developed a model for achieving 4% growth in Indian agriculture, which was implemented and achieved great results. He has impacted global agricultural policies and research through various roles, including Member of Board of Trustees of International Wheat and Maize Improvement Centre Mexico; Member of Policy Advisory Committee of Australian Centre for International Agricultural Research; Member of Food Security Committee of Global Food Security Council of World Economic Forum, Geneva. He has served as India's nodal officer on agriculture and rural development for SAARC and UNESCAP for 6 years and was responsible for preparing SAARC Agriculture Vision 2020. In addition, he has advised Government of India on G20 issues as a senior expert and participated in several G20 meetings during the Presidencies of France, Mexico and Russia. Dr. Chand has been instrumental in deliberations and preparation of policy recommendations at multiple international events across more than twenty countries on topics such as food and nutrition security, poverty, small farm development, trade and WTO, food and price policy, and agriculture growth and development.
